Julien Mellon

Software Engineer

SUMMARY

Software engineer with a deep interest in AI and ML API development. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

PawsPort (Fullstack Web App) – A web app that allows a user to upload their pets' vaccination records to save them in an easy-to-share format to present to groomers, veterinarians, etc.

Winnie-The-Pooh API - A REST API that serves JSON objects with quotes from A.A. Milne's *Winnie-The-Pooh*.

Other Projects: *Too Hungry For Pizza,* Pizza topping Randomizer API, *Ambivalent Bartender*, a cocktail suggestion web app, *Window into the Universe* web app with NASA API integration, and many more

Full Stack Web Developer at J. Mellon Software Consulting | New York, NY
